

4.3-10 Male RF Connector

4.3-10 type male connector, new generation miniaturized RF interface.

4.3-10 Male | 50Ω | 50Ω RF Connectors & Adapters

Custom lengths, connectors and pre-assembled jumpers are available. Send us your specification for a quotation.

SPECIFICATION

Model	4.3-10 Male
Impedance	50Ω
Category	50Ω RF Connectors & Adapters
Options	Custom length, connectors and pre-assembled assemblies

Product description

Explore the 4310-Type Male RF Connector, a specialized component crafted for exceptional signal transmission in high-frequency applications. This connector is a paragon of engineering, designed for environments where signal integrity and precision are paramount.
